Preliminary Amendment filed February 23, 2007

FEB 23 2007

REMARKS

The above preliminary amendment places the claims in the same form as in the Substitute Specification and Marked-Up Copy submitted with the filing of the application. Please consider the changes made to the Specification in the Substitute Specification and Marked Up copy. Also, please accept the Substitute Specification and the Marked-Up copy in which no substantive changes were made to change the scope of the patent. The above preliminary amendment is made to remove multiple dependencies from claims 5-8 and 13-16, to make minor editorial changes to claims 1-16 and to add new claims 17 and 18.

A new abstract page is supplied, and is typed on a separate page as required by U.S. practice.

Applicants respectfully request that the preliminary amendment described herein be entered into the record prior to calculation of the filing fee and prior to examination and consideration of the above-identified application.

If a telephone conference would be helpful in resolving any issues concerning this communication, please contact Applicants' primary attorney-of record, Tong Wu (Reg. No. 43,361), at (612) 336-4611.

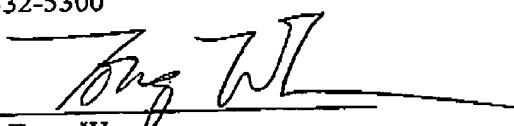

Respectfully submitted,
